

# Prepare Your Pet for Disaster

- Make sure ID tags are up-to-date with your contact information, including info for a relative or friend outside the area. Also keep a current picture of your dog with you in case your dog gets lost.
- Create a portable disaster kit for your dog, and keep in an easy-to-access location. Be sure to include:
  - Food, water – include a 3-day supply for each pet
  - Bowls, non-spill
  - Sturdy leashes and collars
  - Beds/toys if easily transportable
  - Medication and medical records sealed in a waterproof bag
  - Information on feeding schedules, behavior problems, and veterinarian contact info
- Find a safe place to take your pet. List friends, relatives, pet-friendly motels, and kennels outside a potential disaster area.

- Identify friends and relatives who can help. Find people who are comfortable taking care of your dog if you are not home during a disaster. Give them a key and tell them the location of your dog's disaster kit.
