

Shoes Built for a Dog Show

Support is more important than fashion when you're walking on concrete for a whole weekend.

By Allan Reznik

Q. Why do women wear "orthopedic looking shoes" during dog shows?

A. Support, support, support! I have heard no end of complaints from men and women about how hard those concrete floors are on their bodies, especially during a four-day dog-show weekend. Sometimes proper footwear is much more important than being fashionable.
