Name: Jersey

Why my dog should be the Perfect Coat model:

We rescued her from a pound and she is a very sweet and loving dog. Is great with kids and other animals.

Name: Jersey

Why my dog should be the Perfect Coat model:

Jersey is the happiest, most loving dog in the world! He actually knows how to smile when he sees a camera. He loves taking pictures. Everyone always complements him on his wonderfully soft coat. He loves people, and he is absolutely precious! He is a maltichon. He has some curl to his hair when it lengthens, but it is soft like a Maltese, it does not have the feeling of a Bichon Frise. :)
