Hurrah, hurrah!

If ants are marching one by one into your dog's food bowl, consider the Sani-Moat Ant Barrier. The two-piece deterrent acts as a food-bowl platform and a nontoxic barrier, the manufacturer claims. Fill the barrier's "moat" with nontoxic household products such as dishwashing liquid, cooking oil, water, or petroleum jelly to ward off unwanted pests and avoid throwing out food.

Sani-Moat; \$8.99–\$13.99; 818-261-4250; www.sani-moat.com

Get the Hang of It

Kennels make traveling with your dog manageable but can be unwieldy. Kennel Carriers handles are a separate kennel-lifting system that make lifting, loading and carrying larger dog kennels easier, the company says. The two handles attach to the kennel, providing a stable lifting system, decreasing your chances of banging walls and car bumpers.

Pen Pal

Whether you're at the park, on the road, or at home, keep your puppies and small dogs safe and occupied in the Jeep Pet Pen. According to Jeep, the portable dog pen features a removable waterproof mat for house training, an attached bag to hold toys and treats, and a built-in door. The foldable pen opens and closes in less than a minute and comes with a carry bag that protects and stores the pen.

Where Sleeping Dogs Lie

If the standard dog bed lacks the panache your puppy deserves, consider Crypton Super Fabrics. William Wegman's Weimaraner designs adorn these dog beds in various shapes and sizes. Available in an array of styles and colors such as peapod, licorice, hot chocolate, and pomelo, these dog divans are said to provide comfort and style.
