#### When Disaster Strikes

There's no telling when your house will succumb to fires, floods, earthquakes or other natural disasters or accidents. Be prepared and save your dog's life with DNF Industries, Inc.'s Pet Rescue Sign – a free-standing, reflective property sign that informs authorities and neighbors that your cherished dogs reside in your house and must be saved. Surface-mount signs and sign decals are also available.

#### Gate a Life

A safety gate can be the best way to tell your dog: "You shall not pass!" But just try telling the safety gate: "You shall not mark up the wall!" It won't always listen. Enter the EZ-Fit Safety Gate Adapter from 'bout KIDS Inc. It provides a secure mounting surface for attaching safety gates to walls and staircase posts (without the need for drilling holes), is safety-tested and is compatible with just about every gate on the market.

#### Two-Timing

Dog fanciers know the rule for walking well-behaved dogs: the more, the merrier! To avoid multiple-leash tangles and make the task more manageable, Doggstarr.com launches its new multiple-dog leash, which can be used to walk up to four dogs. The leash set comes with two leads and one handle, in a variety of colors.

#### Lost and Found

Every year, millions of pets are reported missing. For dog owners searching for a non-invasive dog-tracking system, Lovemypets introduces the Lovemypets GPS Pet Safety Collar which features a GPS device attached to a glow-in-the-dark and reflective collar. Locate your dog by Internet or phone – the company claims the GPS device works outdoors and indoors (including buildings), and through heavily wooded areas.

#### Stick 'Em Up

If colder weather means more inside time for your dogs, it probably means more hair left on couches, clothes, rugs and so on. Try StickySheets, pet hair removal sheets that quickly remove pet hair and lint from large surfaces, fit into cracks and around corners, and easily pull apart if stuck to themselves, according to the manufacturers. StickySheets can also be used on car interior to protect your seats from wet dogs and muddy paws.
