Komfy Carrier

Keep your canine's temperature in a safe and comfortable range during hot, cold, or unpredictable weather while traveling. The Komfort Pets Carrier features a patent-pending temperature control system that uses both conduction and convection simultaneously, according to the company. The carrier is said to automatically sense the ambient temperature and adjust accordingly.

Neither Rain Nor Snow

Don't let snow, rain or cold prevent your dog from frolicking and exercising outside. Protect him with Ruff Wear's new Cloud Chaser soft-shell jacket. With a waterproof and windproof exterior, this jacket keeps your dog warm with an insulating interior bonded-fleece layer. The jacket comes in two colors (red and blue) and in six sizes (XXS to XL).

Ruff Wear; \$74.95; (888) 783-3932 or (541) 339-1821; www.ruffwear.com

Say "Wnen"

We sometimes have a problem saying "no" to unreasonable food portions...even when it comes to feeding our dogs. Avoid overfeeding and prevent canine obesity with the FoodCuber, a storage tray that you can use to portion food servings and store in the fridge, freezer, or a cupboard. The FoodCuber is available in three measurement sizes, 1/2 cup, 1 cup, and 2 cups.

FoodCuber; \$7.49; (503) 699-CUBE; www.foodcuber.com

What a Purse-onality

Have your dog's silly smile or pensive gaze transferred onto a variety of handbags or coin purses. SnapTotes introduces its picture-perfect handbags, made with fabric created from your favorite dog photo. Preview your product on the company's website; your bag will be custom made and shipped in three weeks or less, says SnapTotes.

Breathe Easy

That infamous doggy odor can sometimes prove a longterm presence in your house. HoMedics introduces the Brethe Air Revitalizer, an air-freshening system which, the manufacturer claims, traps and eliminates stale air and unpleasant smells using the power of water and natural botanicals. The system comes with three botanical solutions: Energizing Lime, Soothing Vanilla and Refreshing Citrus.

Suck It Up!

Shark's new Infinity Series: NV31N Pet Care System is specially designed for advanced pet-hair cleanup. The customized bristles are built with dual felt strips that grab and remove stubborn pet hair from any surface, including upholstery. Cyclonic technology allows for powerful suction, and an array of attachments accommodates a variety of situations.
