

## A Lovable Lady

**The new 50th Anniversary Edition of Lady and the Tramp holds some fun surprises for fans of the Disney film.**

*Maureen Kochan*

Lady and Homer doesn't quite have the ring of a classic.

But that was indeed Tramps original name, as fans will find out in the fascinating bonus features on the new DVD commemorating the 50th anniversary of Lady and the Tramp.

The 2-disc Disney Platinum Collection release contains the beautifully restored original film, plus bonus features such as never-before-seen scenes, a mini-documentary about the making of the beloved film and a fascinating look at a 1943 storyboard version of the film that reveals some secrets about the story's origins.

Kids will enjoy features and games like a 3-D board game, Disney Virtual Puppy DVD-ROM, and PuppyPedia: Going to the Dogs game, which lets viewers learn more about the breeds featured in the film.
