

Preparing for Your Puppy's Homecoming

Are you ready to bring your puppy home?

Prepare for your puppy's homecoming by purchasing the items you will need for him and making your home a safe, puppy-proof place. The basic accessories you will need include bowls, puppy food, a collar, an ID tag, leashes, a crate and possibly baby gates, grooming tools and toys. Puppy-proofing means securing or removing all dangerous items such as electrical cords, fertilizers, household chemicals, sharp objects and the like, having escape-proof fencing around the yard and creating a safe area indoors that the pup can call his own. Keep things low-key during pups first few days at home. On the first day, introduce him to his crate and have him sleep in it overnight.
