

## Training Overview: The Weimaraner Puppy

**Keep these few easy steps to keep in mind while training your puppy.**

The first 20 weeks are your puppy's most critical learning time. Take advantage and teach him right away. Using treats and positive reinforcement is the best way to train any dog, especially one as sensitive as the Weimaraner. Know the basic rules of puppy classes: You are alpha, and you have to learn to speak dog. Teach word association, timing and consistency. Learn the basic principles of successful puppy training. Play games with your puppy to help him learn to come when called.
